HIGH IN PLAIN SIGHT: Current Alcohol, Drug, and Concealment Trends and Identifiers

Abstract

This workshop is for educators, prevention providers, coalition members, law enforcement, probation officers, school administration, treatment, counselors, and parents. This workshop covers alcohol and drug clothing, alcoholic energy drinks, alcopops, alcohol and drug concealment methods and containers, drug paraphernalia, drug related music and groups, logos, stickers, new technology, youth party tendencies, party games, non-traditional alcoholic beverages, social networking sites, synthetic drugs, OTC drugs, inhalants, marijuana concentrates, E-cigarettes, and popular party drugs, including: opioids, Adderall, and ecstasy. This session can also cover common stash compartments that can be used to hide weapons inside everyday clothing containers and other items, in addition to the impact on traffic safety.

This session is unique, in that it provides over 70 visual aids for attendees to hold and become familiar with. In today's culture, everything is person-specific and has different meanings to different individuals. Meanwhile, certain items have gained popularity in the alcohol and drug scene --- which changes every day.

Officer Galloway tailors this session to each community that he teaches in, and constantly updates this training to keep up with the current trends. This allows the community to know what is going on locally, in their own retail stores. Galloway also covers the impact of legalization, if this affects your state.

For each person to help prevent youth and adult substance abuse, you **MUST** know what is going on in your community.
